

STONE CARE

SOAP & MINERAL DEPOSIT REMOVER

New Formula

STONE, TILE AND GLASS
SAFE AND EASY
Effective, Non-Acid Cleaning

MB-3 Soap and Mineral Deposit Remover is specifically designed to safely dissolve soap and mineral deposits from natural stone, tile, glass and fiberglass. Uses a unique combination of special non-acid chemicals that quickly and easily dissolve and remove dingy, unsanitary soap scum and hard water mineral deposits from shower walls, floors, doors, wash basins and bath tubs. Does effortlessly what can't be done even by hard scrubbing with ordinary cleaners and abrasives. MB-3 is highly effective and safe on most natural marble glossy surfaces. Be certain to test product first on a spare tile or inconspicuous area for extra caution before use.

APPLICATION:

Stone, tile & glass

Dilute MB-3 in a proportion of 1 to 2 with warm water. Liberally apply with a sponge and allow to stand — without letting the solution dry until the soap scum begins to break up. Scrub slightly with a scrub brush or plastic scouring pad. Rinse thoroughly. Repeat process if necessary. Drying is not required. Use rubber gloves to avoid contact to the skin.

SPECIFICATIONS:

Appearance.....	Clear Liquid
Odor.....	Sassafras Odor
Specific Gravity.....	1.038
pH.....	12.5
Boiling Point.....	Near 212°F
Flash Point.....	187°F
Water Solubility in Water.....	Complete
